HISTORIC AMERICAN BUILDINGS SURVEY

LOG HOUSE

HABS No. MO-1790

Location: Cooper County, Missouri

HISTORICAL AND ARCHITECTURAL INFORMATION

The following information was recorded by Alexander Piaget and Charles van Ravenswaay at the time the photograph was taken:

1895 photograph shows example of very early and primitive form of log house. Large stone chimney, saddle notched corners, relatively small, squared logs. Door centered. No window on facade. Splint shingle roof. Log sheds on the left and right of the photographs. The right shed could be a later addition to the house.

PROJECT INFORMATION

The Piaget-van Ravenswaay Survey consists of a number of photographs, primarily of sites and structures in Missouri, which were taken before 1938 by Alexander Piaget and after that by Paul Piaget, both in conjunction with Charles van Ravenswaay. Photographs of buildings were incorporated into the HABS collection in 1985 by Laura Rupp, HABS historian. A master list is available in the [REDACTED] records for MO-1800.
